Veyron

Admin Basics

2026-07-26

Ports

Port	Service
8080	Local HTTP API + dashboard (<code>veyron api-serve</code> / <code>serve</code>)
5151	Container / Helm HTTPS API + dashboard
5150 / 30150	HTTP→HTTPS redirect (chart)
30151	Common HTTPS NodePort for dashboard / API

Auth

- `VEYRON_API_KEY` (admin) or `VEYRON_API_KEYS="name:key:role,..."` .
- OIDC PKCE via `VEYRON_OIDC_*` ; groups `veyron-admin` / `veyron-write` .
- WebSocket consoles use one-shot tickets: `POST /api/v1/ws/ticket` .
- Shell HTML (`/` , `/dashboard` , `/assets/*`) and health/OIDC bootstrap paths are auth-exempt.

Install sketch

```
# Local
```

```
veyron api-serve # or: veyron serve
```

```
# Helm (example)
```

```
helm upgrade --install veyron charts/veyron -n veyron --create-namespace
```

OpenAPI: `/api/openapi.json` . Route dump: `veyron api-routes` .
